

A satellite view of Earth from space, showing the curvature of the planet and the dark blue of the oceans. The landmasses are visible as lighter, textured areas. The text is centered over the image.

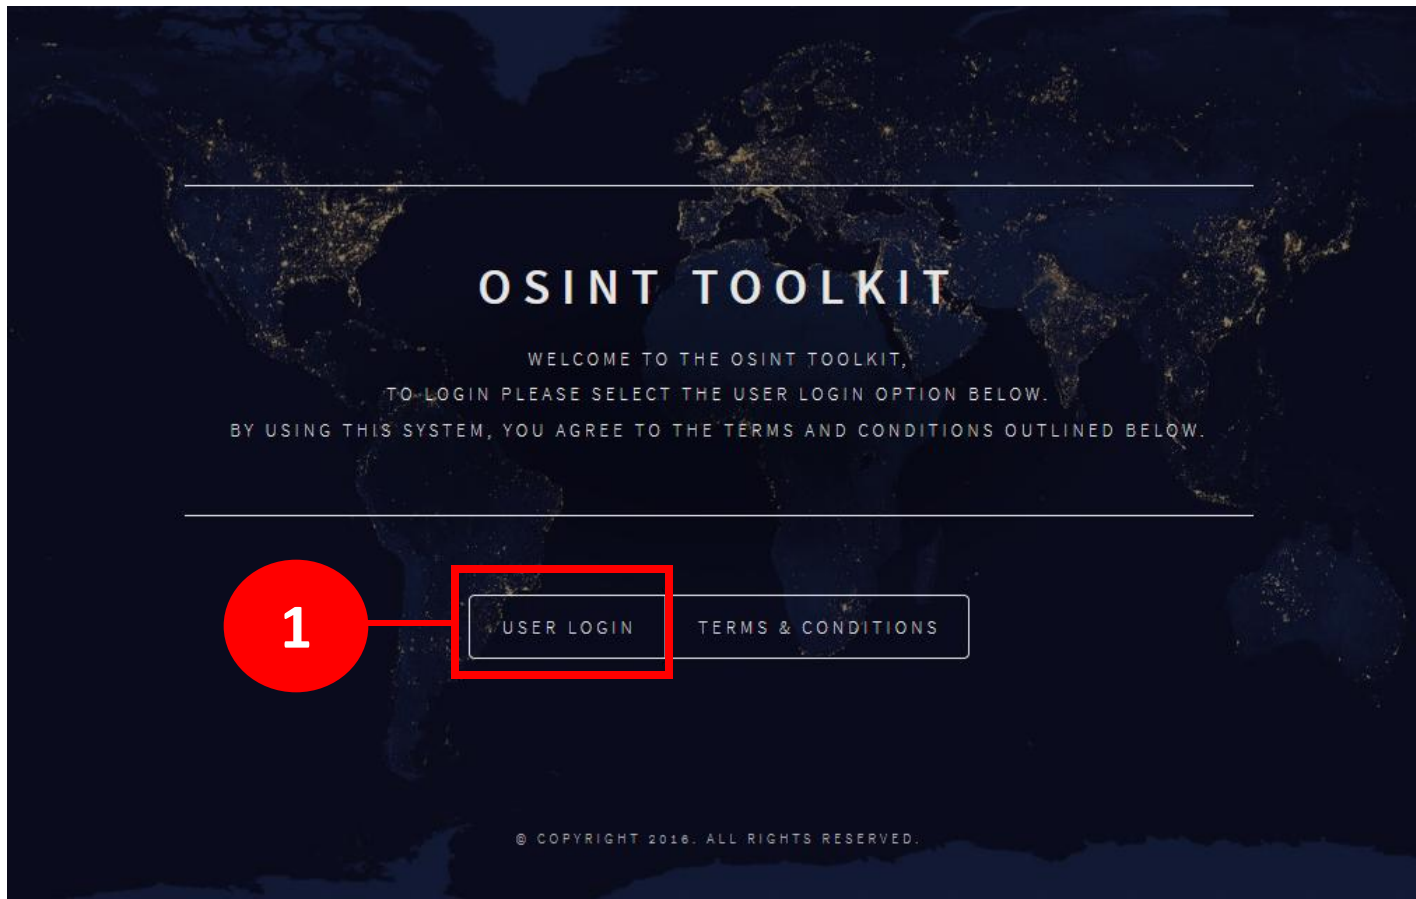

# OSINT Toolkit

## User Guide

# 1. Login

Overview of how to login  
into the OSINT Toolkit

# Login

1. Click the User Login button to be taken to the User Login Screen.

# Login

The image shows a dark-themed login window titled "USER LOGIN" with a close button (X) in the top right corner. Below the title is a line of text: "If you have forgotten your username and or password or if you would like access to the OSINT Toolkit, please contact the OSINT Toolkit Admin Team by clicking [here](#) .". The form contains two input fields: "USERNAME:" and "PASSWORD:". The "USERNAME:" field is a dropdown menu, and the "PASSWORD:" field is a text box. Below these fields is a "LOGIN" button. Three red circles with numbers 1, 2, and 3 are placed to the left of the form, with lines pointing to the username dropdown, the password text box, and the login button respectively.

**USER LOGIN**

If you have forgotten your username and or password or if you would like access to the OSINT Toolkit, please contact the OSINT Toolkit Admin Team by clicking [here](#) .

**USERNAME:**

**PASSWORD:**

**1** **2** **3**

**LOGIN**

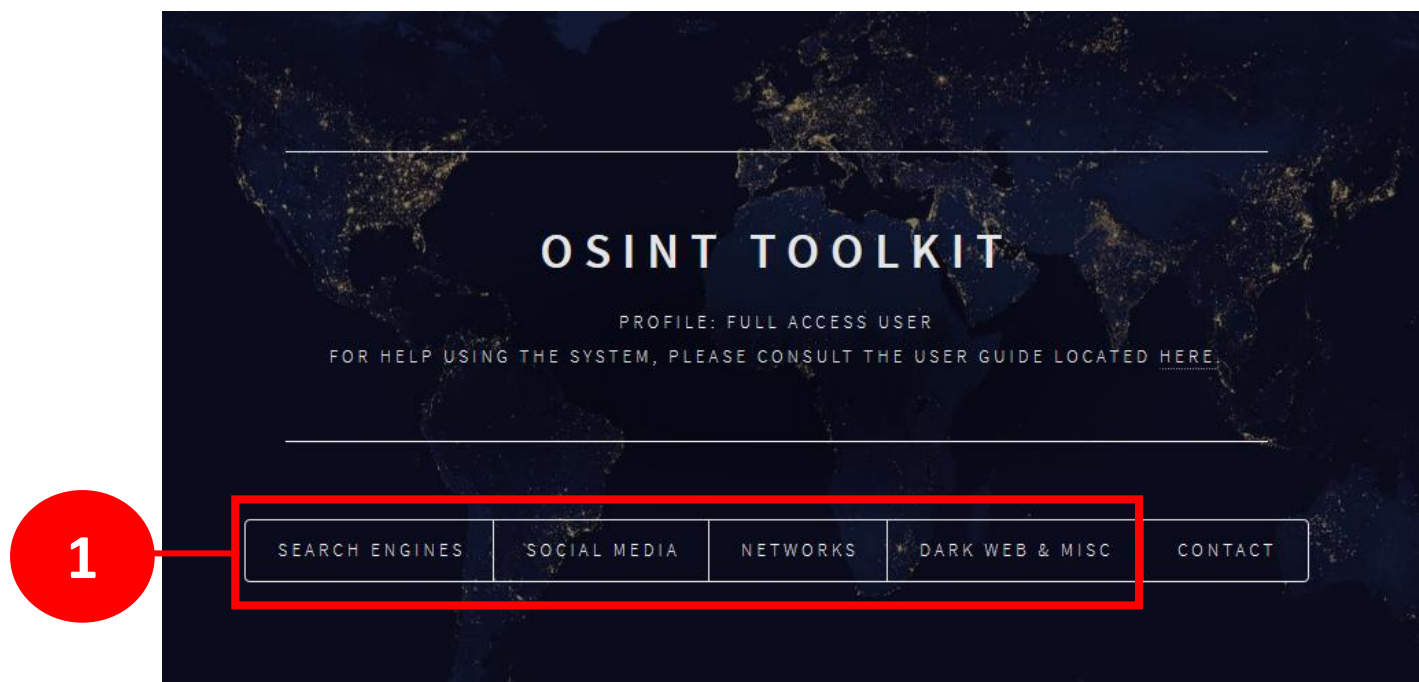

1. Click the username box and select your account from the dropdown list and then click off the username box.
2. Enter your case sensitive password into the password box and then click off the password box.
3. Click the login button.

## 2. Dashboard

Overview of the  
user dashboard

# User Dashboard

After you have logged in, you will see a dashboard similar to the one below. Please note, depending on your profile, your dashboard might contain a different quantity of options than outlined below.

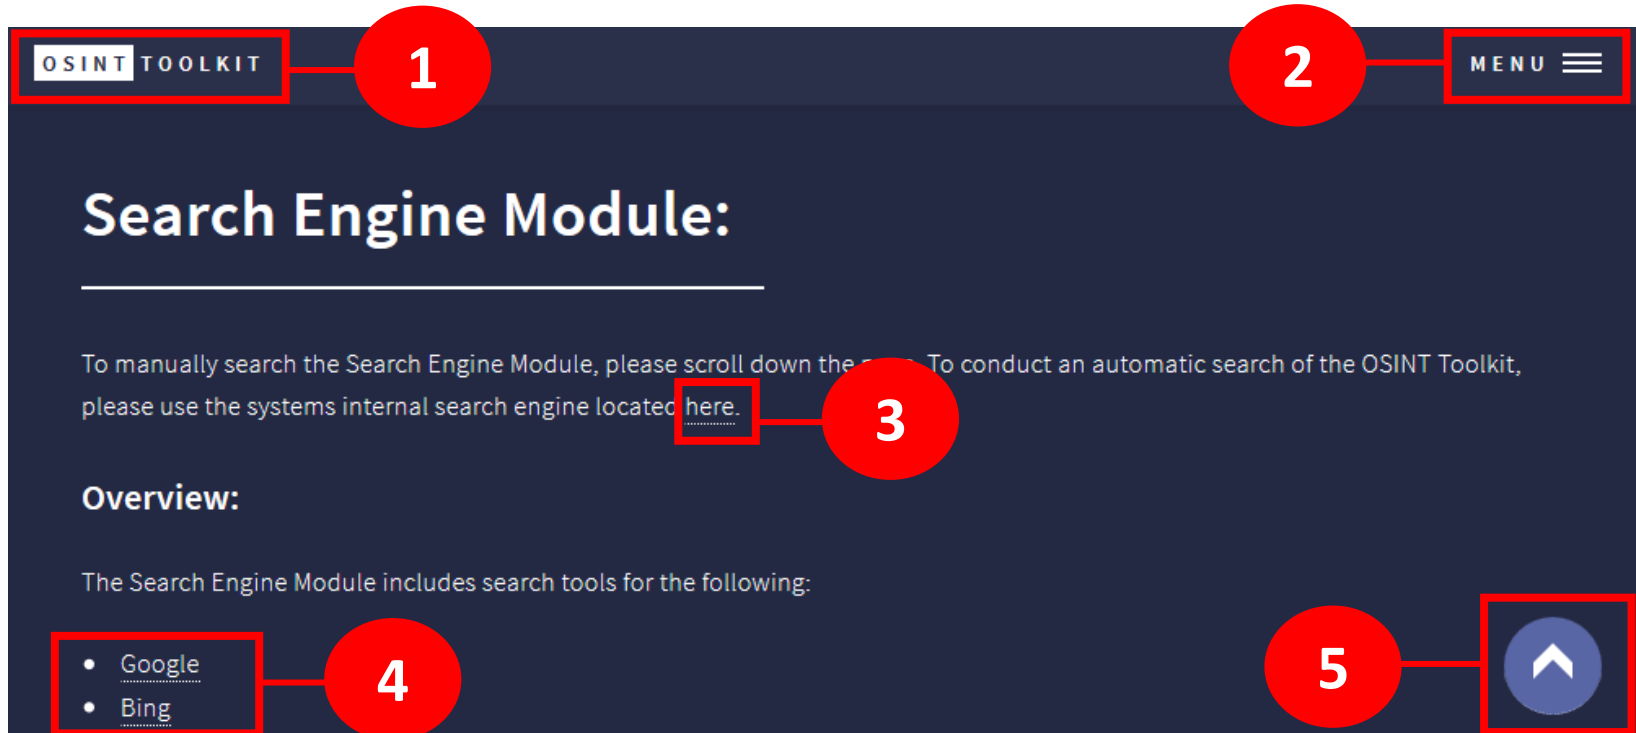

1. Click one of these options will take you to that particular system module. Whereas, clicking the contact button will allow you to send a message to the OSINT Toolkit Admin Team.

# 3. Modules

Overview of a  
Module within the system

# Module Overview

1. Clicking the OSINT Toolkit logo will take you back to the User Dashboard screen.
2. Clicking the menu will open the Module Menu.
3. Clicking this link will open the systems internal search tool.
4. Clicking one of these options will take you to that section of the module.
5. Clicking this circle will automatically take you back to the top of the page.

# Types of Search Tools

Each module presents users with two main types of search tools, as outlined below.

**Exact phrase search using Google:**

This tool will search Google for the exact word or phrase specified.

1

**Youtube Video Downloader:**

If you want to download a video then you need to use the Youtube Video Downloader. The link below will take you to a new page that will allow you to save the Youtube Video Downloader as a bookmark. Once saved, the Youtube Video Downloader will download a Youtube video into a storyboard format.

2

1. This option is a search form. To use it, you will need to enter information into the box(es) and press the search button. Upon pressing the search button, it will perform an automatic search for the information specified.
2. This option is a hyperlink. It will take you to another website (third party content provider). Upon the website loading, you will either be presented with information or be allowed to manually search the website for information.

# Module Menu

Upon clicking on the Module Menu, you will see a screen similar to the one below.

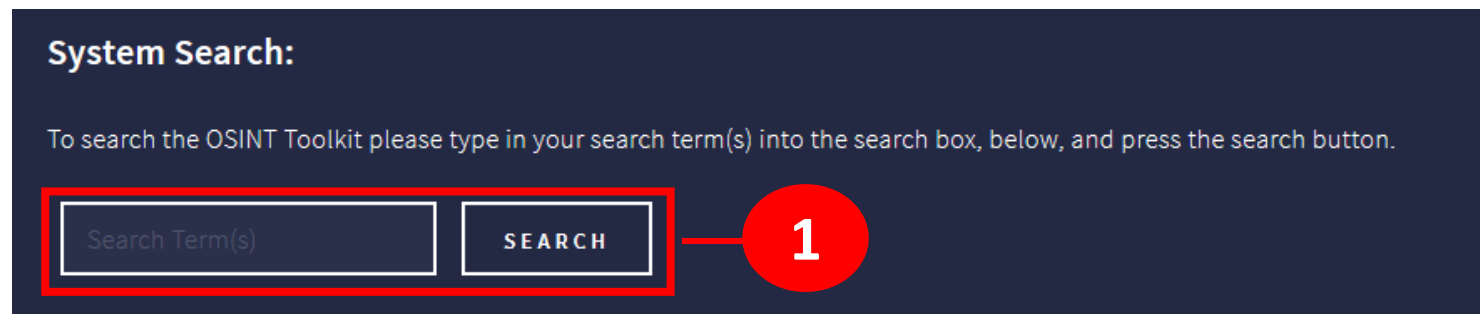

1. Clicking this option will take you to the User Dashboard.
2. Clicking this option will close the Module Menu.
3. Clicking this option will open the systems internal search tool.
4. Clicking one of these options will take you to that module.
5. Clicking this option will allow you to send a message to the OSINT Toolkit Admin Team.

## 4. System Search

Overview of the internal  
system search function

# Internal System Search

Upon loading the internal system search, you will be presented with an overview of how to search the OSINT Toolkit. Upon scrolling down the page, you will see a search form similar to the one below.

The screenshot shows a dark-themed interface for the 'System Search'. At the top, the text 'System Search:' is displayed. Below it, a instruction reads: 'To search the OSINT Toolkit please type in your search term(s) into the search box, below, and press the search button.' The search form consists of a text input field with the placeholder 'Search Term(s)' and a 'SEARCH' button. A red rectangular box highlights both the input field and the button. A red circle with the number '1' is connected to the right side of the red box by a horizontal line, indicating the first step in the process.

1. To use the internal system search you will need to enter a search term or search terms into the box and press the search button. The system will then try to find a search tool or search tools matching your search term(s) and present any results in a new screen.

# Internal System Search

After you have entered your search term(s) into the internal system search and pressed the search button, you will be taken to a results page similar to the one below.

## OSINT TOOLKIT SYSTEM SEARCH:

Please find below the result(s) for your search.

## SEARCH RESULTS:

1

[Google: Cached Website Search](#) Score: 2

This tool will display the latest cached copy of the webpage specified, i.e. it will show you what the page looked like the last time Google archived it.

Total found: 1

1. Clicking on the blue hyperlink will load the specified tool in a new window.

Note, the score next to each result indicates how relevant the result(s) was / were to the search term(s) specified. As more than one tool could have the same score, it is recommended that users carefully read the descriptions provided with each result, before clicking on a hyperlink, to ensure it meets their needs.
